MANCINO

frantoio oleario

In the heart of Apulia.

Our story our territory.

Our oil mill is immersed in hundred-year-old olive groves in the peaceful countryside surrounding Gioia Del Colle. A truly profound and mysterious bond binds us to our origins. Being oil master is a gift, a very rare art. The precious extra virgin olive oil, which we have been producing for generations, is our thanks to this unique land.

FRANTOIO MANCINO

We have learnt to appreciate
the olive tree over the years,
to nurture it and care for it.

*From our gentle hills until you reach the sea,
the majestic and quiet olive groves make us feel
immersed in an eternal landscape, remained
intact over the centuries.*

FRANTOIO MANCINO

Harvest time.

The olives are carefully selected, whilst still on the tree, to ensure they have reached the correct stage of ripening. The wonderful fragrance of freshly picked olives permeates the air, the noisy background music of production accompanies our working day.
